Dear friends,

My case continues to expose corruption at all levels. Please see links below to the following public documents all of which anyone can obtain via the court's official website:

1) recent "tentative ruling" of judge Lynn Hobbs, dept. 61, Stanley Mosk courthouse, central district, Los Angeles Superior courthouse:

3) my opposition and declaration

Read these documents and look through all exhibits with care. Then tell me if we live in a democracy and constitutional republic with a functioning legal system? And is anyone still wondering why these Facebook losers are obsessed with stalking and harming my right to free speech? Is anyone wondering why they fear my right to use platforms they cannot censor and control? Certainly this can't have anything to do with the fact that I have successfully dragged their online conspiracy into the light for everyone to see. I have by now filed the most important motion to unmask further loser defendants in my case, which shall also be posted.

Just by dragging evil into the light, just by forcing a corrupt system to expose itself, one has always already won.

Thank you friends – and more soon,
